Terminal Type

Denka Xtreme Leisure provides a dual purpose maintenance free solution to your leisure requirements. Constructed to give the user both deep cycle power and cranking when required.

All Denka Xtreme batteries are sealed maintenance free, produced with the latest calcium alloys to ensure minimum water loss, great cycle life and trouble free operation.

### Features include

- Completely Sealed Maintenance Free Battery
- Calcium Alloy Plates designed for cyclic use & very low water loss
- Labyrinth condensing lid with integral flame arrestor
- Dual Auto and threaded post for ancilliary connections
- Integral Handle for ease of transport
- Charge Indicator for quick charge check
- Excellent charge retention for seasonal use

Please note : All DENKA Xtreme Leisure batteries should be charged with the appropriate smart/multi-stage charger after every use to ensure a good lifespan. Over discharging or leaving the battery flat will damage the battery and significantly reduce its life.

All specifications subject to change.
